

King Hit

Deodoriser / Disinfectant

KING HIT is a heavy hitting deodoriser and disinfectant best suited to tackling odours in industrial facilities where strong odour masking is required: such as waste depots, public toilets & council facilities. With its bold tutti frutti fragrance King Hit has the strength to mask and disinfect even the strongest malodour.

The fresh floral fragrance of KING HIT deodorises by replacing offending odours, and the disinfecting compounds destroy and remove bacterial sources of malodours. With a long fruity floral fragrance KING HIT restores freshness in working and living spaces.

How to Use

Larger Areas	Dilute 1 part KING HIT to 120 parts water through metered pressure spray
Small – Medium Areas	Dilute 1 part KING HIT to 80 parts water through a back mounted sprayer or bottle atomiser.
Commercial Grade Disinfectant	Dilute 1 part KING HIT to 20 parts water to disinfect walls, floors, tiled areas, bench tops and wash basins. Make solution daily, discard day old solutions.
General Cleaning	Dilute 1 part KING HIT to 50 parts water for use with mops and automatic scrubbers
