Liquid Laundry

Liquid Laundry Detergent

LIQUID LAUNDRY is a high performing concentrated formula, designed for fast and effective fabric laundering.

LIQUID LAUNDRY is suitable for both hot and cold washing and will eliminate stubborn soils from coloured, whites, synthetics, cottons and blends. LIQUID LAUNDRY is also recommended for woollens and other hand washables. Suitable for use in hard water areas.

How to Use	
Top Loading Machines	Use 70 to 100ml for normal loads, for larger loads 150ml should be used.
Front Loading Machines	Use 50ml to 70ml for normal loads and 120ml for larger or heavily soiled loads
Stain removal & Pre treatment	Before washing, apply a little of the dosage to the problem area and then add to the rest of the wash. Rub stain gently and then wash as normal. Test first for colour fastness as some colours are fast in the wash but may run in pre treatment.
Soaking	Use 25ml to 5 litres of water

Features	Advantages	Benefits
Can be used as a pre-soak	Product efficiency	Lowers inventory
Concentrated	High dilution rates	Economical
Long life fragrance	Reodorises	Provides clean fresh environment

Specifications	
Colour	Blue
Odour	Floral
Hard Water Tolerance	Excellent
Rinsability	Complete
Flammability	Non-flammable
