

# Power

## Concentrated Laundry Powder

**POWER** is a bulky non-dusty synthetic laundry powder containing highly active yet low foaming detergents, optical brighteners and soil suspending agents. **POWER** is suitable for low or high temperature laundering.

**POWER's** lemon fragrance provides a clean fresh smell to the finished load.

### How to Use

The quantities may vary according to individual requirements.

It is generally recommended that **POWER** be used in quantities varying from 100-250 grams per 12-25kg load.

The quantities may need to be increased if laundry is heavily soiled or in areas where the water is exceptionally hard

Features	Advantages	Benefits
Concentrated	High dilution rates	Economical
Free rinsing	Does not spot or streak	No rewashing
Powerful formula	Cuts grease and grime	Highly effective

### Specifications

Appearance	Blue Powder
Odour	Lemon
Hard Water Tolerance	Excellent
