

Scale Off

High Performing De-scaling Agent

SCALE OFF is a buffered acid solution combining penetrants and selected detergents to clean and lift soils from hard surfaces.

SCALE OFF is highly effective in the removal of lime, scale rust and dulling from ferrous and non-ferrous surfaces.

How to Use

SCALE OFF is concentrated formula that may be used in a variety of applications:

Dip Tank Cleaner / Descaler	Dilute 1 part SCALE OFF to 5 parts water. Tank may be heated to increase cleaning efficiency. Rinse off with potable water.
C.I.P. Cleaner	May be used to both neutralise and brighten metal surfaces. Dilute one part SCALE OFF to 20 parts water, squirt on to surface and wipe off. Rinse with potable water
Dishwashing Machines	Turn dispensing unit off. Fill wash tank, add 250-500ml of SCALE OFF depending on degree of build up. Run wash cycle. After wash cycle examine machine for areas of heavy build up and use SCALE OFF neat with scourer to remove heavy deposits. Rinse with potable water.
Pressure Washing	LIGHT DUTY: Dilute 1 part SCALE OFF to 50 parts water. HEAVY DUTY: Dilute 1 part SCALE OFF to 20 parts water Apply through pressure washer and rinse off with potable water.

Features	Advantages	Benefits
Variety of Applications	Versatile	Economical
Fast acting	Saves time	Saves money

Specifications

Appearance	Brown Liquid
Odour	Odourless
Hard Water Tolerance	Excellent
Rinsability	Complete
Flammability	Non-flammable
